

PLANNING FOR GROWTH

How high-quality density
can improve communities

Dublin: The Red Cow Moran Hotel, 28th January

Limerick: The Strand Hotel, 4th February

Cork: The Metropole Hotel, 5th February

**IRISH PLANNING
INSTITUTE**

Institiúid Pleanála Na hÉireann

A workshop for Elected Members delivered by the Irish Planning Institute & the Royal Institute of Architects in Ireland

Supported by the Department of Housing Planning & Local Government
and the Office of the Planning Regulator

The National Planning Framework seeks to ensure the creation of attractive, liveable, well designed urban places that are home to diverse and integrate communities that enjoy a quality of life and well-being. A key element of the NPF Strategy is to ensure more compact and sustainable forms of development from the provision of higher density development in towns and cities.

Planners and Architects have a key role to play in the implementation of the NPF, as do Elected Members from Local Authorities across the country. The two professional institutes – the Royal Institute of Architects in Ireland and the Irish Planning Institute have collaborated to deliver a series of Seminars for Elected Members in Dublin, Limerick and Cork.
